PRESS RELEASE

Peerless by Tymphany Speaker Drivers Available Worldwide from Digi-Key

THIEF RIVER FALLS, Minnesota, USA – [Peerless by Tymphany's](#) high-end, quality audio profile offering is available globally through Digi-Key Electronics, a global electronic components distributor, as a result of a new distribution agreement.

“We are thrilled to be partnering with Digi-Key to distribute our Peerless by Tymphany speaker drivers worldwide,” said Phil McPhee, VP, Sales and Marketing at Tymphany. “Audio features are being added to a variety of product categories and our unique catalog of premium solutions can make any type of product sound its best. Digi-Key, with their outstanding customer service and broad customer base, is the perfect distribution partner.”

The drivers are engineered reliably, with quality components that are tested to rigorous performance standards.

“We are excited to add Peerless by Tymphany to our audio portfolio and offer our global customer base their higher grade audio products,” said Tom Busher, VP, Global I P & E at Digi-Key. “Design engineers now have access to high-quality audio speakers, woofers, and tweeters to fit the needs of any audio application.”

For more information about Peerless by Tymphany and to see their entire product listing, please visit their Supplier Center page on the [Digi-Key website](#).

About Peerless by Tymphany

Tymphany designs and manufactures some of the most innovative speaker drivers and audio systems on the market. The company's roots go back to 1926 when Peerless was founded in Denmark. In the proceeding 90 years, Tymphany has grown to be a premier audio ODM with over 4,000 employees. The company has worldwide sales and technical support administered from Sausalito, California. Tymphany's headquarters are based in Taiwan, with manufacturing facilities in China, and additional engineering facilities in Shenzhen, China and Taipei, Taiwan.
